THE FEDERAL REGISTER INDEX

The Index to the daily *Federal Register* is published separately, covering the contents of the *Federal Register* as follows: Monthly for the months of January, February, April, May, July, August, October, November, and December; quarterly for the quarters ending in March, June, and September; and annually for the calendar year.

Entries in the Index are carried primarily under the names of the issuing agencies, with the most significant entries additionally carried in appropriate alphabetical position.

A List of CFR Sections Affected (cumulative codification guide), keyed to the *Code of Federal Regulations*, is also published monthly. It lists titles, parts, and sections, and indicates the nature of changes effected by *Federal Register* documents published to date in the calendar year. Proposed rules are listed at the end of pertinent titles.
